Key Word Index

(Volume 7)

Analysis of variance 2:119; 4:311
Assumption violations 3:207

Bayesian estimation 3:175
Bonferroni 2:139
Box approximation 1:3

Coherence 3:193
Complete symmetry 1:3
Compound symmetry 1:3
Conditional latent trait item bias 2:105
Conditional observed score item bias 2:105
Confirmatory 2:69
Cross-validation 2:69

Decision efficiency 1:47

EFAP 2:69
Effect size 2:119
Equating 3:165
Error analysis 3:215
Exploratory 2:69

Factor analysis 2:69

Generalizability theory 4:311
Generalized symmetric means 4:311
Geometric interpretation 3:233
Group × Item interaction item bias 2:105
Guessing 4:333

Heywood case 2:69
Hierarchical 3:193
Hierachical model 3:175
Hypotheses 3:193
Hypothesis Testing 4:295

Incidence sampling 4:311
Individual consistency index (ICI) 3:215

Kappa index 1:47

LISREL 2:69
Least-squares procedure 1:19
Likelihood ratio test 1:3
Logit and loglinear model for item bias detection 2:105

Major axis 3:233
Maximum likelihood estimates 1:3
Meta-analysis 2:119
Multiple-choice 4:333
Misinformation 4:333
Multiattribute Utility Assessment 4:271
Multiple comparisons 2:139
Multiple regression 2:91
Multivariate generalized beta distributions 4:271
Multivariate procedures 2:139

Norm conformity index (NCI) 3:215
Normal and Beta Distribution 1:19

Order analysis 3:215
Order statistics 3:165

Partial information 4:333
Power rates 3:207
Prediction 2:91
Probability Function 1:19

Quantiles 3:165

Randomized Response Models 4:295
Rank correlation 1:37
Rasch model 3:175
Raw agreement index 1:47
Regression line 3:233
Reliability 4:333
Research synthesis 2:119

Sample size 2:91
Simultaneous inference 2:139
Simultaneous test procedures 3:193
Standard error 3:165
Survey Research Methodology 4:295

Tangent line 3:233
Test of homogeneity 2:119
Tests for mean equality 3:207
Type I errors 3:207

Uniform and nonuniform item bias 2:105
Utility Function 1:19

Validity 1:37; 4:333
